[Knappe PFAS F2017.pdf](#)

Yup... I was in Wilmington on Thursday to talk at the Cape Fear River Assembly meeting. See attached presentation, which I may have shared with you already.

I also wrote emails to CFPUA and Pender County about the possibility of PFASs leaching of their activated carbon filters. CFPUA immediately released my email to their website, which precipitated this Star News article:

<http://www.starnewsonline.com/news/20170929/filters-could-be-leaching-toxins-back-into-drinking-water>

I will be getting samples from both CFPUA and Pender to see whether the leaching is still ongoing and to see what's in the water now.

I wonder whether we can talk a little about possible discrepancies between TOF and QQQ results. Maybe Zack can run a few samples on both instruments? I am wondering whether PFMOAA (178 compound) responds more strongly on the QQQ while Nafion 2 responds more strongly on the TOF.

I submitted my point of view to the News and Observer more than a week ago, but I haven't received any acknowledgment of receipt yet...

Detlef,

I just realized that.

It's been pretty crazy here and I'm sure you've been even busier.

There are many important opportunities and obligations and not enough time.

Thank you,

Andy

Sorry, Andy. The subject line is old. Just wanted to nudge everyone, including myself, to get things on paper. And to explore the Sharepoint collaboration.

Detlef,

Would you like me to get a call-in line?

I can make this meeting until 3:30 and then we have a standing meeting with DEQ that we need to attend.

I haven't been able to write anything yet.

Andy

Hello everyone,

Attached are the first beginnings of the paper. Jamie started to fill in the tox portion, and Mei began writing about treatment. I added a table summarizing treatment processes and a figure showing the latest GenX data.

Andy and Mark, if you have text to add, can you include?

Mark, you recently put a Word document on your sharepoint (Jane Hoppin questionnaire). Could we use the sharepoint as a platform for us to collaboratively work on the paper?

Thank you,

Detlef

All,

I can make it from 3:00 - 3:30 pm tomorrow too.

Thank you,

Andy

Hi all,

Can we have a call at 3 pm tomorrow (Wed)? I'd like to discuss focus, outline, and writing assignments.

Mark, I know you might not be able to make it.

Thx,

Detlef
